

Free Mobile App

Honeywell Total Connect works with iOS and Android devices for easy, on-the-go control. It supports Touch ID™ – a fingerprint recognition feature available for both iOS and Android users and voice commands for Android users.

Apple TV® App

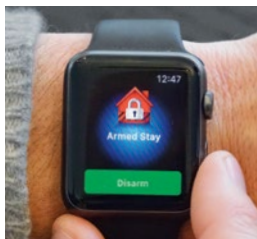

Our app makes it easy for Apple TV owners to view live video feeds from legacy Honeywell Total Connect cameras.

Review video events, remotely move pan/tilt cameras, record video clips of current views and see live security system status 24/7 directly on your TV.

Apple Watch®

Our app lets you control your security system offering visibility into your home.

Test Drive

Preview all of the great features of Honeywell Total Connect on your iPhone, iPad or Android right from the login screen. Handy, pop-up tool tips walk you through every step.

Some images are for illustrative purposes only and may be subject to change.

iPhone and iPad apps available in iTunes® App Store. Android app available in Google Play Store. Apple TV, iPhone, iPad, iTunes and Touch ID are trademarks of Apple Inc. All other trademarks are property of their respective owners.

THE POWER OF **CONNECTED**

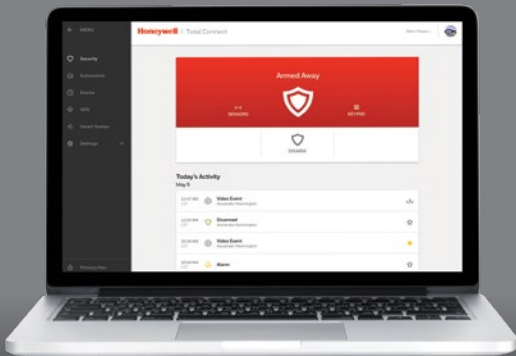

Stay Connected

Honeywell Total Connect® Remote Services

Connected and in Control

Honeywell Total Connect Remote Services keeps you connected to your home or business with the tap of an app anytime, anywhere, on your iPhone®, iPad® or Android™ device. And, our new HTML5 website offers a sleek web experience and convenient access from any mobile device – no app needed.

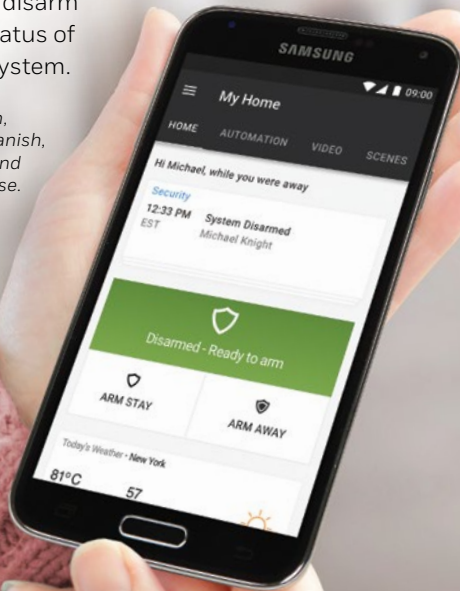

HTML5 web beta address: <https://rs.alarmnet.com/tc2/login>
Once beta is completed, visit www.totalconnect2.com

Smart Security

Remotely arm, disarm or check the status of your security system.

Available in English,
Latin American Spanish,
French Canadian and
Brazilian Portuguese.

Video Solutions

- View live video on up to eight HD cameras at a time – a great way to keep an eye on your home, family or business
- See, hear, speak* and take a snapshot or video of what is occurring
- Two-way audio communication on demand*
- Video clips can be sent to monitoring personnel when an alarm is tripped – letting them look in to determine event severity and arm first responders with the information they need to act quickly

With the push of a smart doorbell, see, hear and speak to visitors at your door, arm or disarm the security system and unlock or lock the door all from the same screen.

Video Doorbell

*Indoor HD cameras only.

GPS Tracking Services

- Real-time GPS tracking** for vehicles and assets
- Keep tabs on teenage and elderly drivers, and monitor employee driving activity
- Fleet management features for small business owners

Energy Control and Automation

- Choose from a wide range of Wi-Fi® or Z-Wave® enabled thermostats to make your home more comfortable and energy efficient
- Control Wi-Fi or Z-Wave enabled locks
- Operate Z-Wave lights, shades, water valves, ceiling fans and more
- Intuitive wizard helps you create scenes for ambiance, comfort and security

Real-Time Awareness

- Get push notifications in real-time, and email and video alerts when important events occur like a package delivery
- Get alerted when you leave predetermined geographic areas if you forget to arm your security system
- Know exactly when your child gets home from school, when a pet sitter or caregiver arrives, when your employees come and go and more

**Available in U.S. only.
